suhasbeleyur@gmail.com | [Github](#) | [LinkedIn](#)

Summary

Final-year Computer Science undergraduate with strong experience in full-stack development and real-time systems. Skilled in building scalable web applications using MERN stack, WebRTC, and WebSockets. Demonstrated ability to design efficient architectures, optimize performance, and deliver user-focused solutions.

Technical Skills

Languages: JavaScript, Python, Java, C/C++, SQL

Frameworks: React.js, Node.js, Express.js, Spring Boot

Technologies: REST APIs, WebRTC, WebSockets, JWT Authentication

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, GitHub, Postman, Firebase

Concepts: Data Structures & Algorithms, Computer Networks, System Design, OOP

Experience

Full Stack Developer Intern, Tap Academy

Jan 2026 – Present

- Worked on Java Full Stack development using Java, Spring Boot, and React
- Built and tested REST APIs and integrated them with frontend applications
- Gained hands-on experience in database management and backend development
- Collaborated on real-world projects and followed industry-level coding practices

Projects

WebRTC File Transfer System

JavaScript, WebRTC, Node.js, React

- Developed a peer-to-peer file transfer system eliminating server storage, reducing cost by up to 90%
- Enabled secure file transfers up to 2GB using DTLS encryption and SCTP data channels
- Implemented real-time progress tracking with low-latency communication (<200ms)

WebSockets Chat Application

Node.js, Express.js, WebSockets, JWT, PostgreSQL

- Built a real-time chat system supporting 100+ concurrent users with instant message delivery
- Implemented JWT-based authentication for secure user sessions
- Designed optimized PostgreSQL schema for efficient message storage and retrieval

Voice-Based AI Assistant

Python, JavaScript, LLM API, Speech APIs

- Developed an AI voice assistant integrating speech-to-text, LLM processing, and text-to-speech
- Automated tasks like web search and application launching via natural language commands
- Improved user interaction through hands-free system control

Education

Malnad College of Engineering

Hassan, Karnataka

Bachelor of Engineering in Computer Science and Business Systems

2022 – 2026

GPA: 8.04/10.0

Achievements

- Secured **3rd place** at n8n Hackathon, Malnad College of Engineering
- Selected among **Top 5 teams** at AIT Chikmagalur Hackathon

Languages

English (Fluent) | Kannada (Native) | Hindi (Fluent)

Hobbies & Interests

Building coding projects, exploring superbikes and motorsports, learning new languages like Japanese and German, practicing typing (55–60 WPM), and exploring Yakshagana art.
